

Service & Technology Update

BOTTLETOP DISPENSER

» How to Place an Order

Please contact the JSA office or your local JSA technical service representative and provide the following information:

1. Model number of the Bottletop Dispenser required.
2. Quantity required.
3. Chemical Compatibility - If you have concern about chemical compatibility, please provide a chemical description including concentration and we will check with the manufacturer.

Thank you for the opportunity to work with you.

» Design Benefits

- **Solutions Dispensed** - weak acids, alkaline solutions, polar solvents, isotonic solutions, methanol, acetylacetone
- **NEVER USE WITH** - liquids that attack Polypropylene, Polyethylene & EPDM, concentrated or oxidizing acids, and explosive liquids
- **Simplified Dispensing** - notched volume selector allows for quick and exact volume adjustment
- **Innovative Design**- simple disassembly for cleaning and rapid replacement of wearing parts
- **Fits Most Containers** - 45 mm standard thread plus the included adapters with 33mm & 38mm threads to fit most common lab bottles

» Part Numbers & Prices

Part Number	Volume Range	Increments	List Price
28440-01	1 to 10 ml	0.2 ml	\$135.00 each
28440-02	2.5 to 25 ml	0.5 ml	\$165.00 each

Accuracy, consistency and repeatability are important characteristics of any laboratory. From the technician's perspective, efficiency is also critical. Bottletop dispensers possess all of these attributes in a cost effective, well engineered design. Available in two volume ranges, these units are easily adjustable and suitable for any laboratory environment. Please contact your local JSA technical sales & service representative for product availability, or to place an order. Thank you.
