

# DIGITAL TANK TIMER & ALARM

## » HOW TO ORDER

Simply contact a JSA representative via phone, fax or email and reference the model numbers below along with the quantity required.

## DIGITAL TIMER OPTIONS

### Beacon Light

- Highly visible strobing light illuminates when cycle is up

### Magnetic Feet

- Magnets on the feet allow the unit to be attached to steel surfaces

### Audible Alarm Tones

- Different alarm tones available to identify specific tanks - listen to optional tones at: [www.floydbell.com/products/turbo.php](http://www.floydbell.com/products/turbo.php)

### Buzzer Volume Control

- Snap on muffler can reduce audible alarm by 20dB

Still compact, waterproof and corrosion resistant, the NEW Digital Tank Timer & Alarm includes features to improve accuracy and flexibility. A large digital display, exterior side button time setting controls and an optional beacon light alarm will ensure the line operator knows when it is time to pull the parts. No plugs or wiring are required with the lithium battery operated T4 models, and options are available to accommodate any unique application. Please contact your local JSA technical sales & service representative for product demonstrations and availability.

## » Design Benefits

- **Chemical & Corrosion Resistance:** PVC enclosure and push buttons are NEMA 4X rated.
- **Easy to Use:** Set time using Up / Down side buttons and push the front button to start
- **Flexible Timing Range:** Time range from 1 second to 99 hours.
- **Compact and Durable:** Rugged construction; 4" x 4" x 2" deep
- **Strong Alarm:** Loud warbling tone at 103dB cuts through loud plant noise; bright flashing beacon is highly visible.
