

FLOKING ACCESSORIES

» How To Order?

Please contact the JSA office or your local JSA technical service representative for pricing and availability on the items listed below.

Thank you for the opportunity to work with you.

Trash Trap

Kurt Tube

FloKING manufactures 7 different styles of in-tank filter systems that can pump, filter, agitate and carbon treat chemical process solutions. Also available are a number of unique accessories that help increase filtration capabilities, optimize solution flow and improve the overall ease of operation. Pump style and body length options make FloKING filter systems a good fit for nearly every application. Selecting the proper accessories can improve productivity by increasing plating rates, minimizing down time and reducing rejects. Please contact your local JSA technical sales & service representative for more detailed information, product recommendations and availability.

» Description & Benefits

Slide-In Filter Cartridge Adapter (SIFCA)

- Simplified way to change filter cartridges without removing pump (shown above)

Trash Trap

- The Trash Trap surrounds the filter cartridge; keeps dirt, metal shavings and large particles in the canister and out of the tank

Kurt Tube

- Provides unidirectional agitation that can be directed at the parts or at other areas of the tank; can improve plating speed

Horizontal Cartridge Adapter Kit

- Designed for shallow tanks or improved bottom filtration

(Not Pictured)

Adjustable Flow Restrictors

- Reduce the flow rate with thumbscrew adjustment

In-Tank Floating Skimmer

- Designed to remove light surface oils to prevent them from re-depositing on the parts

Horizontal Cartridge Adapter Kit

January 2014
