

POLY / STAINLESS SPIN BASKETS

» How to Place an Order

Please contact the JSA office or your local JSA technical service representative and provide the following information:

- Basket style (number of support girths) and quantity of baskets required, *including perforation size*
- If you need a different size basket (6x6, 10x10, 18x18, etc.), please provide as many application details as possible.

Thank you for your interest in our products.

In most metal finishing facilities, polypropylene spin baskets take a beating. For applications where baskets are regularly stressed & overloaded, reinforced stainless steel poly baskets may help to extend basket life and reduce down time. Two standard reinforced basket options are available, but with pictures and the correct measurements, almost anything is possible. Please contact your local JSA technical sales & service representative to review unique design requirements, and to find out more information about other basket sizes and manufacturing lead times.

» Features & Benefits

- **Perforation Options** - 3/32", 1/8", 3/16", other non-standard sizes available upon request
- **Stainless Steel Support Girths** - (2) 2" Girths, or (1) 2" & (1) 4"
- **Heavy Duty Handle** - Stainless steel swing handle with rod insert support
- **Reinforced Bottom** - Unique 06 style bottom minimizes breakthrough
- **Dryer Styles** - Baskets are designed to fit Desco, New Holland and Nobles dryers (Nobles dryers require special notches on the bottom of the basket)
- **Reinforced Ears** - The "ears" of the basket (where the handle bolts into the basket) are often a weak point, so they are reinforced with Stainless Steel inserts

Notches for Nobles dryer

» Part Numbers & Prices
